

Lance Jensen

Registered Patent Attorney | Shareholder

Office: Salt Lake City

Direct: 435.575.1384

Office: 801.297.1850

ljensen@mabr.com

Lance has a degree in electrical engineering and is proficient across a broad array of

telecommunications and network technologies, including software-related arts applied to communications and online commerce. Lance's representative work includes work for Fujitsu and Finisar prosecuting patents, preparing opinions, and providing intellectual property litigation support related to modulation of data onto a signal, as well as telecom software and circuitry. Lance has also participated in litigation related to lithium-ion battery compositions and configurations.

In addition, Lance has performed extensive work for Paypal and other online commercial entities prosecuting patents and managing IP portfolios related to network security and backend architecture. Lance is also well versed in artificial intelligence technology, having worked extensively on the framework/architecture for artificial intelligence systems.

Lance has significant experience helping companies identify and protect their ideas with respect to diverse technologies ranging from self-driving vehicles, data storage, spokeless wheels, video conferencing, semi-conductor wafer analysis, lithium-ion battery manufacturing processes, and circuit board layouts and manufacturing. Lance has also helped these companies secure design patent and trademark rights.

Prior to becoming a lawyer, Lance worked for the U.S. Army developing technology for LIDAR systems used to detect chemical and biological weapons. Lance also took a wide array of classes as an undergraduate related to chemistry, biological engineering, antenna design, wireless communication and networking, CMOS design and layout, control systems, and analog and digital circuit design.

Lance loves spending time with his family, skiing, and boating.

Education

- J.D., *with honors*, The University of Texas School of Law, 2009
- B.S., *magna cum laude*, Utah State University, Electrical Engineering, 2006

Practice Focus

- Patent Prosecution
- Intellectual Property Licensing and Enforcement
- Patentability, Infringement, and Validity Opinions
- Patent Litigation
- Requests for Reexamination

Technical Experience

- Telecommunications
- Software systems
- Optical components and systems
- Electrical circuit components and systems
- Networks

Professional Admissions & Associations

- Utah State Bar
- U.S. Patent and Trademark Office
- Texas State Bar
- U.S. District Court – E.D. Texas

Second Language

- Spanish
